Announcement About The Bond Street Capital Companies **from: Joe Forman, President and CEO**

Bond Street Capital Corp. was formed in 2001 and began operations in 2002. In the six years following, Bond Street Capital has grown to over twenty corporate owned offices located throughout the country and originates loans for over a dozen capital partners. .

What many of you may not know is that at the time of Bond Street's formation, my wife Nancy and I owned and operated two successful commercial real estate service companies; RainMaker Financial Affiliates and The RainMaker Companies. These two firms have continued to operate successfully as separate companies along side Bond Street since its inception.

It was important during the early years that Bond Street remain independent of the RainMaker entities to establish its credentials as a direct lender and correspondent. We feel strongly that our record of closing loans over the last six years validates us as a direct lender and correspondent for capital providers.

However, these are challenging times and every company in our industry must evaluate the efficacy of its business model. We have looked at the costs and effectiveness of operating three separate companies and decided now is the time to make some changes. **We are therefore pleased to announce that we have combined the services and programs of our three companies into The Bond Street Capital Companies Inc. (BSCCI)**

The Bond Street Capital Companies, Inc. will exclusively offer the direct lending and correspondent loan programs formerly provided by Bond Street Capital Corp plus the investment banking and brokerage services of The RainMaker Financial Companies, and the institutional representation services of RainMaker Financial Affiliates. Bond Street Capital will no longer actively engage in the commercial lending business. Those activities will be solely offered through The Bond Street Capital Companies, Inc.

The Bond Street Capital Companies, Inc's growing network of company offices will now be able to provide a complete portfolio of services

including:

- More direct lender and correspondent [Loan Programs](#).
- The ability to tap the resources of the hundreds of financial institutions and the specialized expertise and relationships we have developed in the RainMaker Financial Companies since 1988.
- Specialized and innovative non-institutional financial solutions.

With more than twenty offices nationwide, and growing, **The Bond Street Capital Companies** is committed to providing innovative financial solutions and excellence in transaction management.

Contact the professionals in your local market to discuss your financing needs today.

Joe Forman, President and CEO of **The Bond Street Capital Companies**.
